SUMMARY OF AUDIT FINDINGS

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	5
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	2

b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).	I reviewed the intake material, educational material, medical records to confirm this. I interviewed the medical staff, teacher, clinical coordinator, shift supervisor, PREA Compliance Manger, line staff and residents to confirm this.

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

88. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	I had access to all areas of the facility and made myself available to all youth and staff that wished to meet with me. I had access to all files in the facility. I observed signage, posters, phone access throughout the facility. Noted the hotline numbers and the advocate numbers posted throughout the facility.
--	--

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	I was able to review the intake packets, educational, medical and log books. I reviewed all risk assessments and then also reviewed the six month re-assessments.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

Auditor Overall Determination: Meets Standard

Auditor Discussion

The Adelphoi Village PREA Policy requires the facility to develop, implement and document a plan to ensure staffing ratios are met. Staff schedules and resident rosters were reviewed by this auditor to confirm compliance. The Pennsylvania DHS inspects staffing during their annual licensing inspection and throughout the year if there is a reportable incident.

The PREA Staffing and Administrative Plan states the facility runs at a minimum of 1:16 staff to resident ratio during the 11pm-7am shift and at a minimum of 1:8 staff to resident ratio during the 7am-3pm and 3pm-11pm shifts. These are the regulations set by Pennsylvania 3800 Child Care. It was confirmed by this auditor after reviewing population reports for the past twelve (12) months, staff schedules, and observations made during the tour of the facility that these ratios were being maintained and exceeded on a consistent basis.

The Adelphoi Village PREA Policy requires the facility to develop, implement and document a staffing plan that provides for adequate levels of staffing, and where applicable, video monitoring to protect youth against sexual abuse. The PREA Staffing and Administrative Plan must be completed and submitted to the PREA Coordinator. In determining adequate staffing levels and the need for video monitoring, facilities must take into consideration:

1. Generally accepted juvenile detention and correctional/secure residential practices
2. Any judicial findings of inadequacy
3. Any findings of inadequacy from federal investigative agencies
4. Any findings of inadequacy from internal or external oversight bodies
5. All components of the facility's physical plant (including "blind spots" and/or areas where staff or youth may be isolated)
6. Composition of the different facilities
7. Number and placements of supervisory staff
8. Programs occurring on each shift
9. Relevant laws, regulations, and standards
10. Prevalence of substantiated and unsubstantiated incidents of sexual abuse
11. Minimum staff to youth ratios must be 1 to 8 during waking hour and 1 to 16 during sleeping hours.

Any deviations from the plan due to limited and discrete exigent circumstances must be documented on the PREA Staffing and Administrative Plan. Only security staff must be included in those reports.

There were thirteen (13) residents residing at Williams House during the on-site portion of this audit. The average daily population at the facility during the past twelve (12) months has been thirteen (13) residents.

The annual PREA Staffing and Administrative Plan at Williams House also addresses the facility staffing plan and requirements. The plan is reviewed on an annual basis and was reviewed by the PREA Coordinator on May 12, 2022. The PREA standard calls for a 1:8 ratio during resident waking hours and no less than 1:16 during resident sleeping hours.

The facility is equipped with six (6) video surveillance cameras. Recordings from these devices remain on a secure server for approximately thirty (30) days. There is one (1) monitor located in the staff office and one (1) workstation which allows the cameras to be observed. In addition, the Director has access to the video surveillance system on his computer in his office which can be viewed and/or reviewed at any point during the day. Video from all major incidents is reviewed by the Unit Director retained on a DVD.

The Unit Director reported that they maintain a ratio of 1:6, which exceeds the standard; and this auditor observed a 1:4 ratio during the on-site portion of the audit. The Unit Director reported that there have been no deviations from the staffing plan during the past twelve (12) months. He also reported that in the event management staff feel staffing ratios cannot be maintained during the upcoming shift, staff would be held over and paid overtime to meet the ratios. Interview with the Unit Director revealed that staffing is monitored shift to shift and that adjustments are made as needed to ensure the ratios are met. Staff schedules and resident rosters were also reviewed by this auditor to confirm compliance.

The Adelphoi Village PREA Staffing and Administrative Plan states the facility runs at a minimum of 1:16 staff to resident ratio during the 11pm – 7am shift and at a minimum of 1:8 staff to resident ratio during the 7am – 3pm and 3pm – 11 pm shifts. These are the ratios set by the Pennsylvania 3800 Child Care Regulations. It was confirmed by this auditor after reviewing population reports for the past twelve (12) months, staff schedules, and observations made during the tour of the facility that these ratios were being maintained and exceeded on a consistent basis.

Interviews with the PREA Coordinator and the PREA Manager confirmed that the Staffing Plan is reviewed, when necessary, but no later than once a year. This document is maintained by the PREA Manager and the PREA Coordinator.

A review of the Williams House PREA Staffing and Administrative Plan confirmed that this plan is reviewed on an annual basis and was reviewed by the Unit Director on May 12, 2022.

The Adelphoi Village PREA Policy states that a management level employee shall conduct and document unannounced rounds, at a minimum of twice a month. Unannounced rounds are conducted on all shifts, weekends, and holidays to identify and deter staff sexual abuse and/or sexual harassment. All unannounced rounds are documented using the Unannounced Rounds Tracking Form. Documentation is also maintained in the PREA folder.

A review of Unannounced Rounds Logs and staff interviews, with the Unit Director confirmed that Unannounced Rounds occur as required in this standard. The Unit Director was able to discuss how he completes the unannounced rounds during his interview, assured minimum ratios were being met, and his inspection of all areas including the housing unit. The Unit Director also stated that he conducts random rounds by selecting different times of the day/night and days of the week. This auditor was able to review the Unannounced Rounds Log to confirm that unannounced rounds were being completed.

115.315	Limits to cross-gender viewing and searches
	Auditor Overall Determination: Meets Standard
	<p>Auditor Discussion</p> <p>The Adelphoi Village PREA Policy prohibits staff from conducting cross-gender pat searches and that youth may only be searched by staff of the same gender. All searches must be conducted with a witness. The Adelphoi Village PREA Policy prohibits the search or physical examination of a transgender or intersex resident for the sole purpose of determining the resident's genital status. According to the Pre-Audit Questionnaire, there were no cross-gender strip searches or cross-gender pat searches during the past twelve (12) months. Interviews with residents, staff members, and the Unit Director confirmed there have been no cross-gender pat searches of residents during the past twelve (12) months. Staff members interviewed understood what an exigent circumstance would be and that this is the only time they would be permitted to conduct a cross-gender pat search. They also stated they would immediately complete a detailed report as well as document the reason in the log. This was confirmed during the interviews with the Unit Director, PREA Coordinator, random staff members, and residents during the on-site portion of the audit. Staff stated that they do not conduct them, and residents stated that they have never been subjected to a cross-gender pat search. All staff have received training regarding the search of a transgender or intersex resident in a respectful and dignified manner. They stated this training occurs with their annual PREA refresher.</p> <p>Staff and residents both stated that staff announce themselves using the practice "knock and "announce" when entering a housing unit where there are residents of the opposite gender. The Adelphoi Village PREA Policy enables all residents to shower, perform bodily functions, and change without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia. This was verified by interviews with staff and residents. Interviews with residents verified that female and male staff announce themselves before entering the housing unit of the opposite gender.</p> <p>Reviewed documentation to confirm compliance:</p> <ul style="list-style-type: none"> · The Adelphoi Village PREA Policy · Search Procedures · Shower Procedures · Staff Training Curriculum · Staff Training Logs <p>Interviews:</p> <ul style="list-style-type: none"> · Interview with the Unit Director · Interview with the PREA Coordinator · Interview with random staff · Interview with residents

115.316	Residents with disabilities and residents who are limited English proficient
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

The Adelphoi Village PREA Policy states that all residents that are admitted with disabilities shall have equal opportunity to all aspects of Williams House's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Residents with disabilities shall be provided accommodations in accordance with the American Disabilities Act, 28CFR 35.614.

Examples include staff reading the PREA pamphlets to vision impaired residents and providing resident education in audio and video format for both vision and hearing impaired. The facility provides the entire program in audio format for the blind and visually impaired and in written format for the deaf. There were no deaf or blind residents to interview to determine the effectiveness of presentation. The facility's PREA education is an audio/visual presentation conducted by the Unit Director on the day of admission.

The Adelphoi Village PREA Policy states that Williams House will ensure that residents with limited English proficiencies are instructed on the facility's efforts to prevent, detect, and respond to sexual abuse and sexual harassment by providing translated copies of resident's rights, grievance procedures, the Adelphoi Village PREA Policy, and the PREA pamphlet addressing zero tolerance. Adelphoi Village provides contracted interpreting services to assist Williams House in interactions with language barriers when communicating with residents. Special education teachers are available for residents with learning disabilities. A language interpretation service is available for other languages should the need arise. Other residents do not meet the policy's definition of "qualified interpreter."

There was one cognitively disabled resident residing at Williams House during the on-site portion of this audit. This resident was interviewed by this auditor and confirmed all his needs are met, and anytime he does not comprehend something, he knows he can seek assistance from a staff member. During interviews with the Unit Director and PREA Coordinator, they both noted any disabled resident residing at the facility receives an equal opportunity to participate in, and benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse.

The agency PREA brochure is available to residents in both English and Spanish. Both versions of this brochure were reviewed by this auditor. In addition, PREA posters are posted in the housing units, all common areas, hallways, front entrance, and the area where family visits take place. These posters are also in both English and Spanish and are bright orange in color.

In addition, interpreters are also available. This auditor was provided a comprehensive list of interpreters that are available to the residents. There were four (4) limited English proficient residents residing at Williams House during the on-site portion of this audit. Three (3) of the four (4) residents were interviewed by this auditor. They stated all of their needs were met, and anytime they do not comprehend something, they know they can seek assistance from staff.

Random staff interviews confirmed that residents are not used as interpreters. In addition, it was confirmed during interviews with staff members and Unit Director that there have been no circumstances during the past twelve (12) months at Williams House when interpreters were required.

The Unit Director who was interviewed reports that each new resident views the PREA video, Safeguarding Your Sexual Safety, a PREA orientation video describing sexual abuse and sexual harassment and how to report it including the hotline. The Unit Director states that after the video, he verbally goes over the PREA posting and then shows them the Family Services hotline information. He has them sign an acknowledgement. The residents also receive a PREA pamphlet. They received the initial PREA education on the day of admission but received comprehensive PREA education by their counselor on day seven (7). This auditor reviewed ten (10) resident files during the on-site portion of the audit, and all contained a signed copy of the acknowledgement form

Interview with the Unit Director confirmed all PREA education information is communicated orally, in a video, in writing, and in a language clearly understood by the resident, on the day of admission. Language assistance resources are available through interpreter services. They provide services for the blind and deaf by utilizing braille for the visually impaired youth, and a hearing specialist will be provided for the deaf residents. The facility also ensures that key information about PREA is continuously and readily available or visible through posters, Resident Handbooks, and PREA brochures. This auditor was able to confirm this material was available in both English and Spanish during the tour of the facility and by reviewing the Resident Handbooks and PREA brochures.

All residents interviewed stated they were educated upon admission, but four (4) received a more comprehensive PREA education by the Unit Director a week later on their unit. They acknowledged viewing the PREA video, receiving the Resident Handbook, and PREA brochure. Residents also stated that staff conduct regular check-ins regarding their safety and services that are available to them. Residents were very knowledgeable about PREA, including PREA Policy (zero-tolerance), their rights to be free from sexual abuse and sexual harassment, their right to be free from retaliation for reporting, and multiple ways to report sexual abuse and sexual harassment (both internally and externally). All youth entering any Adelphoi Village facility, either as a new admission or a transfer, go through the same intake process. As of May 1, 2022, Adelphoi Village (Williams House) began to conduct comprehensive PREA education on day seven (7). Four (4) of thirteen (13) residents did receive their initial PREA education pertaining to their rights and how to report sexual abuse and sexual harassment on day of admission. They also received the comprehensive PREA education on day 7 by their Unit Director.

Corrective Action: Williams House will continue to conduct PREA education on a youth's day of admission but will also conduct comprehensive PREA education on day 7 by the Unit Director. The Corrective Action will last for a period of 90 days. They will provide this auditor with all comprehensive PREA education signed acknowledgements from newly admitted residents on day 7 and provide intake PREA education signed acknowledgement forms for all residents that are admitted for the next 90 days.

115.341	Obtaining information from residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

Adelphoi Village PREA Policy addresses the use of the Vulnerability Assessment Instrument, Risk of Victimization, and/or Sexually Aggressive Behavior in that it shall be administered on the date of admission to obtain information about each resident's personal history and behavior to reduce the risk of sexual abuse by or towards a resident. The Vulnerability Assessment Instrument is used to obtain victimization or abusiveness, current charges, mental health and/or developmental status, and placement history. Living unit and room assignments are made accordingly. A vulnerable resident will not be placed with or next to a sexually aggressive resident. They also consider the age, height, weight, and resident's own gender identity when placing youth into program.

The Unit Director administers the instrument, considers the intake packet, conversations with parents, probation officers, and caseworkers as part of every intake. The Unit Director that was interviewed stated he used a combination of developing a conversational rapport with the resident and asking direct questions. Periodic reassessment occurs as a part of the Multi-Discipline Team treatment process and after any PREA related incident. All completed Vulnerability Assessment Instruments are securely kept in the resident's electronic file and have restricted access.

During the past twelve (12) months, there were twenty-three (23) residents admitted whose length of stay in the facility were for seventy-two (72) hours or more. All residents admitted into the facility were screened for risk of sexual victimization or risk of sexually abusing another resident within seventy-two (72) hours by being administered the Vulnerability Assessment Instrument by Unit Director. This auditor was able to confirm the Vulnerability Instrument is completed upon admission immediately after the PREA education. The Unit Director who completed the Vulnerability Assessment was interviewed and confirmed he understood how to administer this screening and were aware of its importance in keeping residents safe from sexual abuse. Adelphoi Village PREA Policy, state the facility must ascertain information about: prior victimization or abusiveness; any gender non-conforming appearances or manner of identification as lesbian, gay, bisexual, transgender, or intersex; and whether the youth may therefore be vulnerable to sexual abuse; current charges and offense history; age; level of emotional and cognitive development; physical size and stature; mental illness or mental disabilities; physical disabilities; the youth's own perception of vulnerability; and any other specific information about the individual youth that may indicate needs for heightened supervision, additional safety precautions, or separation from certain other youth. There were three (3) residents that had been in program for greater than six (6) months that had a reassessment completed.

This auditor was able to review the Vulnerability Assessment that is used to screen residents and confirm this form captures the information required for this standard. This auditor was able to review the resident case files to confirm they are being completed within seventy-two (72) hours of intake.

Interviews with the PREA Coordinator and the Unit Director that performs screening for risk of victimization and abusiveness revealed that the Unit Director interviews each resident upon admission and periodically throughout a resident's confinement. Staff that perform screening for risk of victimization and abusiveness also stated they use case history notes and behavioral reports when completing the assessment. The periodic reassessments are conducted every six (6) months by the Unit Director. An interview with the Unit Director confirmed that the reassessments occur every six (6) months. A review of the reassessments was verified by this auditor.

All completed assessments are securely kept in the resident's electronic file and staff have limited access to these files. All necessary information is recorded and communicated to staff members for housing assignments, room assignments, or additional supervision purposes only to ensure sensitive information is not exploited to the resident's detriment by staff or other residents.

115.351	Resident reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

Adelphoi Village PREA Policy has established procedures for allowing multiple internal ways for residents to report privately to officials regarding sexual abuse and sexual harassment, and staff neglect. The document showed several ways for residents to report sexual abuse, sexual harassment, or retaliation. These are:

- Direct reporting to an employee, educational staff, or contracted entity
- Privately reporting to a public or private entity, or an office that is not part of the agency
- Grievance process
- Privately reporting to Family Services of Altoona
- Third parties including family members or attorneys

The PREA Policy contains all necessary information and provides for residents to make reports verbally, in writing, anonymously, and through third parties. It mandates that staff accept resident reports in all these formats and that these reports shall be immediately processed according to child abuse regulations. All staff are mandated reporters of abuse per Adelphoi Village PREA Policy and the laws of the Commonwealth of Pennsylvania. Youth receive a handout at admission regarding how to report abuse and there are posters throughout the facility and on all housing units in English and Spanish with the information. Residents have direct access to a phone to anonymously report abuse to the Family Services of Altoona. Residents can also call home and have visits with their parents and grandparents on a weekly basis. Visits by Probation Officers and Attorneys are not limited, and residents confirm they receive them. Some of the residents have cell phones which they can use to report any abuse allegations.

All youth interviewed confirmed they have received information instructing them on how to report allegations of sexual abuse, sexual harassment, or retaliation. Resident information is delivered to the residents at admission by the Unit Director. They receive comprehensive PREA education on day seven (7) by the Unit Director. PREA education, including a PREA video, Resident Handbook, and PREA brochures, are provided to the resident. Numerous posters (in both English and Spanish) were observed throughout the facility by this auditor during the tour. These posters highlighted the various ways residents and staff can report incidents of sexual abuse. Additionally, they understood the grievance process. All knew where to access the phone to report abuse to the Family Services of Altoona. Residents receive information upon admission regarding how to report abuse and there are posters throughout the facility and on the housing units in English and Spanish with the information.

Staff members interviewed were also knowledgeable of the various ways residents and staff can report incidents of sexual abuse, sexual harassment, or retaliation. All staff members interviewed stated they would immediately document a verbal report and process according to child abuse regulations.

There is a grievance box located on the housing unit. Forms are available in English and Spanish. The grievance box is checked daily. All residents were aware of the grievance procedures and stated they were shown how to fill out a grievance by their counselor during intake.

There were no incidents at Williams House solely for civil immigration purposes. However, during the interviews with the Unit Director, it was determined he would provide the residents information on how to contact relevant officials at the Department of Homeland Security to report sexual abuse and/or harassment.

115.371 Criminal and administrative agency investigations

Auditor Overall Determination: Meets Standard

Auditor Discussion

Adelphoi Village PREA Policy states any reports (direct, indirect, third-party) received involving sexual abuse and sexual harassment shall be reviewed by the Unit Director or designee to determine if an incident meets the minimum criteria under the guidelines established by Prison Rape Elimination Act. The incident shall be reviewed promptly, thoroughly, and objectively. If the minimum criteria are met, the allegations shall be reported to the Allegheny Township Police who have been trained in sexual abuse investigations involving juvenile victims. There is an MOU with the Allegheny Township Police.

The facility does not conduct criminal investigations. The PREA Policy complies with this standard relative to the administrative investigations. Adelphoi Village's investigators completed PREA investigations training and follow the protocols there in when conducting investigations related to the allegations of sexual harassment. The internal administrative investigation is not in lieu of the Department of Human Services investigation and is conducted to determine adherence to policies and procedures. This investigation shall not impede the Department of Human Services investigation.

If the allegation of sexual abuse was determined to be substantiated or unsubstantiated, an Incident Review would also be conducted after the investigation was complete. Investigations are not to be terminated should the source of the allegation recant the allegation. The facility will report all allegations, even if the victim recants. All allegations, even if a staff person is no longer employed at the facility, are reported.

As noted in the PREA Policy, Williams House does conduct investigations for allegations of sexual abuse or sexual harassment. Investigations are also completed by Department of Human Services.

Interviews with a representative from Department of Human Services confirmed that all staff complete investigations of sexual abuse and sexual harassment and receive training specific to juvenile sexual abuse victims. The investigator was able to describe the training to this auditor during the phone interview. The investigator stated that all evidence gathered during the investigation is kept within the investigative file and local law enforcement authorities are contacted as necessary.

They gather and preserve direct and circumstantial evidence, interview alleged victims, suspected perpetrators, and witnesses during an investigation. In addition, all reports and video footage of the allegations are also reviewed by investigators during an open investigation. During the interview with the Department of Human Services investigator, they confirmed investigations are not terminated because the source of the allegation recants the allegation. They stated the investigation would continue until a determination is made. They also stated that whenever evidence supports criminal prosecution, the investigation would be turned over to the Allegheny Township Police.

During the interview with the investigator, they noted the alleged victim's credibility will be assessed on an individual basis and not determined by their status as a resident or staff member. They stated that all investigations are conducted in the same manner; investigators conduct fair investigations, do not judge credibility, and collect evidence and facts during each investigation. It was also noted that polygraphs are not utilized during investigations.

There was one (1) resident who reported allegations of sexual harassment during the past twelve (12) months. The resident stated that a Safety Plan was put in place and staff would check on his safety. The sexual harassment allegation was only investigated by William House investigator who substantiated it. The resident was informed of the outcome of the investigation.

Investigative reports note whether staff actions or failures to act contributed to the alleged abuse. Each investigative report is sent to the PREA Coordinator at the conclusion of an investigation and clearly notes if the allegation is substantiated, unsubstantiated, or unfounded. All allegations that are potentially criminal in nature are referred to the Allegheny Township Police. During the past twelve (12) months, there were no allegations of sexual abuse referred to the Allegheny Township Police.

The PREA Policy notes all files are kept as long as the alleged abuser is within Adelphoi Village custody or employed by the agency, plus five (5) years. This was confirmed by the PREA Coordinator.

The investigator noted the departure of an alleged abuser or victim from their employment or control by the facility/agency does not provide a basis for termination of an investigation. They state the investigation would continue until a determination is made.

The PREA Policy notes the facility will cooperate with outside investigators and will remain informed of the investigative process. The Unit Director stated that they maintain contact with the Department of Human Services investigators during an open investigation via telephone calls, e-mails, and on-site visits.

There were two (2) allegations of sexual abuse or sexual harassment during the past twelve (12) months. Both allegations of sexual harassment were only investigated by William House Investigator. Interviews with the Unit Director and the Agency PREA Coordinator confirmed the protocols are in place for administrative and criminal investigations. The one (1) resident

that made the allegation of sexual harassment was interviewed by this auditor. He said that it was just a comment that the other resident made, and he told staff the next day. He stated he did not make a written report nor did he want to call it in. He said he was informed of the outcome and staff have been checking up on him regularly.

	Auditor Discussion

Adelphoi Village PREA Policy state that a resident may be subject to disciplinary sanctions pursuant to a formal disciplinary process following an administrative finding that the resident engaged in resident-on-resident sexual abuse, resident-on-resident sexual activity, or following a criminal finding of guilt for resident-on-resident sexual abuse. Any resident that violates these policies is subject to disciplinary sanctions commensurate with the nature and circumstances of the incident. Consideration will be taken into the nature and circumstances of the incident, resident history, mental health or disabilities, and precedent of sanctions imposed under similar circumstances. Residents are subjected to disciplinary sanctions for contact with staff, if upon investigation, it is determined that the staff member did not consent to such contact. Disciplinary action must be administered in a fair, impartial, and expeditious manner. Consideration must also be given to providing the offending resident therapy, counseling, or other interventions for the abuse. Williams House has a youth handbook that outlines the behavioral treatment program response for such violations. Based upon the therapeutic nature of these programs, the general tenor of responses were therapeutic in nature.

Interview with the Unit Director confirmed that a resident's mental health is always considered when discipline is imposed for incidents of sexual abuse. In addition, the Unit Director stated the resident's mental health diagnosis is reviewed and considered during Sexual Abuse Incident Reviews following a substantiated or unsubstantiated finding to ensure appropriate discipline was imposed.

Consideration must be given to providing the offending youth therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. However, the facility may not require participation in such interventions as a condition of access to general programming or education.

Interview with Agency Director of Nursing was conducted by this auditor during the on-site portion of this audit. The interview confirmed Williams House does offer mental health services for any resident found to have engaged in resident-on-resident sexual abuse. The medical staff stated the resident's participation in therapy sessions is not always required as a condition of access to reward-based incentives.

There were two (2) allegations of resident-on-resident sexual harassment during the past twelve (12) months. The resident involved was sanctioned per the program rules.

The PREA Policy states the facility may only discipline a youth for sexual contact with staff upon a finding that the staff member did not consent to such contact. Interviews with the Unit Director confirmed a resident would only be disciplined for sexual contact with a staff member upon finding the staff member did not consent to the sexual contact. There were no incidents of resident-on-staff sexual abuse during the past twelve (12) months. The Unit Director also confirmed that residents are not disciplined for reports of sexual abuse made in good faith, even if the investigation did not establish evidence sufficient to substantiate the allegation. The Unit Director also noted that any suspicion of possible sexual abuse is reported to the ChildLine hotline immediately for investigation.

There were no allegations of sexual abuse during the past twelve (12) months. If there was an incident, the perpetrators would be sanctioned within the program rules. All residents sanctioned would afford daily recreation, therapy, counseling, or other interventions designed to address and correct underlying issues. Adelphoi Village does not use isolation or segregation as a disciplinary measure.

Interviews with the Unit Director and the PREA Coordinator confirmed that the facility does not use isolation and the underlying issues related to the incident would be addressed in therapy. They also stated that a resident making a report in good faith cannot be disciplined according to the PREA Policy.

Interviews with the Unit Director confirmed a resident would only be disciplined for sexual contact with a staff member upon finding the staff member did not consent to the sexual contact. There were no incidents of resident-on-staff sexual abuse during the past twelve (12) months. The Unit Director also confirmed that residents are not disciplined for reports of sexual abuse made in good faith, even if the investigation did not establish evidence sufficient to substantiate the allegation. The Unit Director also noted that any suspicion of possible sexual abuse is reported to the ChildLine hotline immediately for investigation.

There were no allegations of sexual abuse during the past twelve (12) months. If there was an incident, the perpetrators would be sanctioned within the program rules. All residents sanctioned would afford daily recreation, therapy, counseling, or other interventions designed to address and correct underlying issues. Adelphoi Village does not use isolation or segregation as a disciplinary measure.

Interviews with the Unit Director and the PREA Coordinator confirmed that the facility does not use isolation and the underlying issues related to the incident would be addressed in therapy. They also stated that a resident making a report in good faith cannot be disciplined according to the PREA Policy.

Auditor Discussion

Adelphoi Village PREA Policy states all allegations of sexual abuse or where there has been penetration or contact between the mouth and penis, vulva or anus; or where there is an injury that may indicate penetration, or contact between the mouth and penis, vulva or anus, the victim will be immediately transported to UPMC Altoona for clinical assessment and gathering of forensic evidence by professionals who are trained and experienced in the management of victims of sexual abuse. The outside medical facility's trained Sexual Assault Nurse Examiner (SANE) will make the final determination regarding evidence collection. Staff who can provide support to the victim must accompany the youth. If a youth refuses to be examined at the hospital, such refusal must be properly documented on the appropriate form(s).

Williams House has a MOU in place with UPMC Altoona to have a forensic examination completed by a Sexual Assault Nurse Examiner (SANE) and provide medical/mental health services at no cost to the victim. This MOU was provided to this auditor for review. In addition, this auditor contacted a representative from UPMC Altoona to confirm resident victims are referred to their facility and receive the services noted in the MOU.

There were no residents at the facility who reported sexual abuse involving penetration during the past twelve (12) months. Therefore, there were no residents sent to UPMC Altoona for a forensic examination.

The PREA Policy states to preserve evidence, and an allegation of rape or penetration requires that a youth not be allowed to engage in any activities such as hygiene, washing, bathing, showering, eating, drinking, brushing teeth, chewing gum, and eating or drinking (unless medically necessary). Youth should also be discouraged from urinating or defecating as that may destroy evidence prior to being presented at a hospital for the gathering of such evidence.

All staff members interviewed confirmed the duties of a first responder and were able to describe their responsibilities if they are a first responder to an allegation of sexual abuse.

The PREA Policy states victims of sexual victims of sexual abuse are offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis. This is in accordance with professionally accepted standards of care, where medically appropriate.

This auditor was able to interview a medical staff, during the on-site portion of the audit, who stated any resident of sexual abuse would be offered information and timely access to emergency contraception and sexually transmitted infections prophylaxis while at UPMC Altoona and during follow up appointments with medical staff at the facility.

PREA Policy states all medical, mental health, and counseling services must be provided at no cost to the youth.

This auditor was able to interview the Unit Director and an agency medical staff member during the on-site portion of this audit and a representative from UPMC Altoona. All interviewed staff confirmed that any victim of sexual assault would be referred to UPMC Altoona and receive medical and mental health treatment at no cost to the victim.

Williams House has a MOU with the Pennsylvania Coalition Against Rape through the Family Service of Altoona. The Family Service of Altoona is notified by the resident, staff, family and/or the facility. They will send an advocate to the hospital and meet with the victim and guide the victim through the SANE examination, investigation process, interviews, and arrange for counseling and support services for the resident. These services will be at no cost to the resident.

Interviews with the Unit Director and the PREA Coordinator confirmed that resident victims of sexual abuse are provided timely and unimpeded access to emergency services at no cost to the victim. This was confirmed by this auditor by reviewing the MOU with UPMC Altoona and with the Family Service of PA.

	<p>Auditor Overall Determination: Meets Standard</p> <p>Auditor Discussion</p> <p>Adelphoi Village PREA Policy state that residents will be offered a follow-up meeting with a mental health practitioner within fourteen (14) days of the intake screening. Any resident or resident offender will be assessed and offered follow-up counseling that will be on-going within sixty (60) days of learning about the abuse history. However, the counseling usually occurs the same day staff learn about it. In the event that a sexual assault incident was to occur, the victim would receive services from the community provider as outlined in the statewide MOU. Treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperated with any investigation arising out of the incident.</p> <p>Interview with the Unit Director and interview with the agency medical staff confirmed all residents are offered a medical and mental health evaluation upon their arrival to the facility (if they have been a victim of sexual abuse in a residential facility or not). It was noted these evaluations are completed during the resident's first week at the facility.</p> <p>Medical and mental health evaluations completed on each resident at the facility include a diagnosis and recommendation. Medical staff interviewed noted if a resident was a victim of sexual abuse in a residential facility, follow-up services would occur more frequently, and recommendations would include more specific follow-up services.</p> <p>Interviews with the Unit Director and Clinical Coordinator confirmed any resident who is a victim of sexual abuse at the facility would be offered timely follow-up for sexually transmitted diseases as part of the follow-up with the community medical provider. This would occur if the victim was tested at the hospital or not.</p> <p>Interview with the Unit Director confirmed the above-mentioned process occurs as detailed in this standard.
