Adelphoi

Education Services

Adelphoi Education provides an academic and therapeutic setting for students from surrounding public school districts who would benefit from a more structured and supportive learning environment. The supportive learning environment is responsive to behavioral and emotional factors that impede students' academic success.

Behavior Support Program (Grades 9-12)

The Behavior Support Program is a temporary placement to assist in returning students successfully to their home school. This program provides behavior counseling, social skills, and academic instruction in grades 9-12.

Partial Hospitalization

The Partial Program is designed to accept children who require a higher level of structure and support than traditional mental health outpatient treatment, but who are not showing the level of acuity that would necessitate mental health inpatient treatment. This allows the child to remain at home in their community while receiving mental health treatment and educational support. Both regular and special education students are accepted.

YES Dropout Prevention Program (Grades 9-12)

The Your Educational Success program, or YES program, assists students to recover credits in order to graduate with their cohort class. Districts using the YES program have seen a decrease in the number of reported drop outs and an increase in the number of students graduating with their cohort class.

Emotional Support Program (Grades K-12)

The Emotional Support Program is a temporary placement to assist students in grades K-12 returning successfully to their home school. This program provides on-site therapy services by a Licensed Mental Health professional on staff. In conjunction with the reasons for referral and the student's Individual Education Plan, the therapist utilizes the DSM-5 assessments to help create the individual treatment plan and tailor the identified student's treatment needs.

Criteria for Enrollment

Intake criteria are developed in collaboration with the referring school district. Students referred are not required to have an Individualized Education Plan, but typically exhibit emotional support needs, disruptive behavior, and truancy concerns. Upon referral, an intake meeting will be held with the student, their family, and any support services in place for the student. Other participants include Classroom Teachers, School Based Mental Health Therapist, and Administrative Staff. A decision will be made regarding enrollment at the conclusion of the meeting and communicated with the home district and family if the student is a good fit for the program. Student success relies heavily on a collaborative effort of the team, including family cooperation and input.

Why choose Adelphoi?

- *Strong continuum of care*
- *Outcomes-driven, evidence-based programs*
- *College and vocational scholarships*
- *Cost-effective*
- *80% of kids remain out of care for at least 1 year*
- *76% of youth successfully complete services*
